PROFESSIONAL EXPERIENCE

Pantech eLearning, Chennai • Machine Learning Intern ,   07/2024 - 08/2024

Completed a machine learning internship, focusing on the development of predictive models and real-world applications. Gained valuable experience in machine learning techniques, project execution, and team collaboration.

- ▶ Led the "Car Price Prediction" project, developing a machine learning model to accurately predict car prices, improving pricing strategy accuracy.
- ▶ Collaborated with a cross-functional team to enhance model performance, resulting in a 20% improvement in prediction accuracy.
- ▶ Utilized advanced data analysis and machine learning frameworks to handle complex datasets, demonstrating strong technical and problem-solving skills.

Codtech IT Solutions, Telengana • Embedded Systems Intern   07/2024 – 08/2024

During my internship at Codtech IT Solutions, I gained hands-on experience in embedded systems, working on innovative projects and applying my academic knowledge to real-world scenarios. I collaborated with a team of professionals, enhancing my understanding of embedded technologies and contributing to project success.

- ▶ Gained practical experience in embedded systems, enhancing my skills in hardware and software integration.
- ▶ Worked on cutting-edge projects, which deepened my understanding of embedded system applications.
- ▶ Collaborated effectively with the Codtech IT Solutions team, contributing to the successful completion of assigned tasks.

IBM SkillsBuild Program, Edunet Foundation, Bengaluru • Intern   06/2024 - 07/2024

During this 4-week virtual internship focused on AI and Cloud Computing, I participated in IBM's SkillsBuild program, aimed at enhancing foundational skills for entry-level positions in emerging technologies. I engaged in hands-on projects and masterclasses, gaining experience in cloud computing, AI & ML experiments, and data analytics.

- ▶ Gained practical knowledge in AI, cloud computing, and data analytics.
- ▶ Worked on projects involving AI and machine learning in cloud environments.
- ▶ Completed masterclasses by industry experts, enhancing my technical and professional skills.

Polenza Tech Solutions, Chennai • Raspberry Pi RP2040 Intern   January - 2024

During my internship, I contributed to the Raspberry Pi-based Fire Detection project utilizing image processing techniques.

- ▶ Developed and implemented a fire detection system using Raspberry Pi, incorporating image processing techniques.
- ▶ Improved detection accuracy by 30% through innovative approaches and integration of advanced image processing algorithms.

EDUCATION

BE(ECE) • Adhiparasakthi College of Engineering, Kalavai
2025 – June (Present)
CGPA - 7.972 (upto 5th sem)

HSC • A.C.S. Matric Hr. Sec. School, Irumbedu
2020 – May
80.6%

SSLC • Govt. Hr. Sec. School, S. V. Nagaram
2018 – May
86%
